

# W.W. (9/17/2014) Character Types Notes

- **Major or central characters** are vital to the development and resolution of the conflict. In other words, the plot and resolution of conflict revolves around these characters.
- **Minor characters** serve to complement the major characters and help move the plot events forward.
- **Dynamic** - A dynamic character is a person who **changes over time**, usually as a result of resolving a central conflict or facing a major crisis. Most dynamic characters tend to be central rather than peripheral characters, because resolving the conflict is the major role of central characters.
- **Static** - A static character is someone who **does not change over time**; his or her personality does not transform or evolve.
- **Round** - A rounded character is anyone who has a **complex personality**; he or she is often portrayed as a conflicted and contradictory person.
- **Flat** - A flat character is the opposite of a round character. This literary personality is notable for **one kind of personality trait or characteristic**.
